(By Associated Press.)  
London, July 19.—(Bulletin.)—The Russians have crossed the Carpathians and have penetrated a day's march into Hungary, according to a dispatch to the Star from Petrograd.

**Russians Hammer Hindenburg.**  
(By Associated Press.)

London, July 19.—The French made some progress last night in the Verdun sector in the course of hand Grenade fighting near Fleury, says today's Paris official statement.

A German raid near Paschendaele, Belgium, was checked by French fire as was a raid north of Aisne.

The Germans recaptured a portion of Delville Wood and obtained a footing in the northern outskirts of Longueval, London announced today. This was also announced by Berlin.

Another German statement says the Russians have been strongly reinforced along the front southwest of Riga and are heavily attacking Von Hindenburg's forces there. The assaults all failed.

**Discussed Peace.**  
(By Associated Press.)  
Washington, July 19.—Dr. Paul Ritter, the Swiss minister, today discussed the prospects of peace in Europe with Acting Secretary of State Polk. He indicated afterward that the talk was without tangible results.

Minister Ritter called at the state department to learn if there was any foundation in the various reports that President Wilson desired to see peace negotiations initiated. It is understood he was informed that the president hoped for peace and was ready to do anything he could, but that President Wilson saw no prospects of immediate developments which might make an opening for a peace wedge.

### NATIONAL PROHIBITIONISTS MEET

William Sulzer and J. Frank Hanley in Contest for Nomination at National Convention at St. Paul.

St. Paul, Minn., July 19.—With the contest for the presidential nomination between adherents of William Sulzer and J. Frank Hanley at an intense point among the delegates to the national convention, the national prohibition party opened its first session here this morning. Prolonged applause punctuated the keynote address of Daniel A. Poling of Boston, who is temporary chairman. The applause was particularly marked when the deplorable European war, the deplorable militarism, the attack on the ammunition manufacturers, and exultant progress of the prohibition and suffrage movements were referred to. The forenoon session concluded at 12:41.

It is practically conceded that Dr. Ira D. Landrith of Nashville, Tenn., will be nominated for the vice presidency as he has the support of all factions.

### Mlle Verlet

of the Paris Opera, famed Belgian Coloratura-Soprano, is but one of the many great artists who have proved by direct comparison that Edison's new art re-creates all forms of music so exactly that the Re-Creation cannot be detected from the Original. Hear Edison's Re-Creation of the voice of Alice Verlet; then hear the Great Belgian Artist herself when she is on tour.

**No! Your neighbors could not tell which is the real voice of Mlle. Verlet.**

If Alice Verlet, of the Paris Opera, stood on your veranda, or near an open window, and sang in direct comparison with Edison's Re-Creation of her voice, your neighbors could not distinguish one from the other—nor could you, unless you watched Mlle. Verlet's lips.

This is no empty assertion. It can be proven by the music critics of leading American newspapers who have heard the test made. A booklet containing their critiques will be furnished on request.

### The NEW EDISON

is not a talking machine. It embodies a new art whereby all forms of music are actually re-created. It is not alone Alice Verlet's voice which is so re-created. No voice is beyond this new art.

Come to us and hear Edison's Re-Creation of the work of the world's great singers and instrumentalists.

### MANY VISITORS EXPECTED NEXT WEEK

Preparations Are Being Made for the Largest Crowd That Has Ever Attended Farmers Congress.

Announcement was made this morning by officials at College that they are expecting the largest crowd that has ever attended a Farmers' Congress or Farmers' Short Course here next week. Preparations have been made for several thousand visitors and the largest number of reservations that has ever been made is the report from this institution. Every mail has been flooded with letters of inquiries of various kinds reserving rooms and arranging for meals. Steward Shiba has made preparations to feed several hundred people and his ability to take care of large crowds bespeaks for the visitors plenty to eat.

The Short Course will begin Monday and last the entire week, while the Farmers' Congress will be in session the last three days of the week.

All railroads in Texas have put on a very low rate, one cent a mile from all points, and with this small amount to be expended in railroad fare, the citizens of Bryan and College can expect more visitors here than they have seen in a long time.

It is to be hoped that every citizen here will do all in his power to make the visitors have a pleasant time. President Waldrop of the Commercial Association has issued a call to every citizen to clean up his premises so that a good impression of our fast growing little city will be heralded to the four corners of the state.

Some people can't stand prosperity, but the majority don't get a chance to try.
